

## **The Personal Injury Practice Area at Fox Rothschild LLP**

### **Case Studies**

#### **The Plan:**

The client came to us after having knee replacement surgery in both knees following which she had severe postoperative complications in one of the knees that lead to decreased circulation, severe infection in her leg with a lengthy recuperation from 5 surgeries, leaving her with severe scarring in her leg.

#### **The Outcome:**

Suit was filed and the case proceeded to jury trial. After 7 days of trial, a jury awarded our client \$1,325,000. When prejudgment interest was added the award exceeded \$1,400,000. The defendant doctor appealed the jury verdict but the case ultimately resolved by settlement for \$1,400,000 in our client's favor.
