

## **Latino Leaders – “Top Latino Lawyer”**

1. We open nominations in which we ask lawyers from around the country to nominate all those Latino lawyers which they think are the Top. To be nominated they have to fill a nomination form. They have to be Latinos; They have to send us at least 2 to 3 successful cases in which they're the principal lawyer. Prove their different recognitions, and how and how much involved are they in the Latino Community (associations, charity, etc.)
2. We gather all the nominations and our team of researchers goes and does a research in each one of them to find out if everything that we have is legit and that they don't have anything that would put them out of the list.
3. After this the nominations are send to our committee (conformed by Latino Leaders of the community around the country in different markets). And the committee makes the selection on which of them are the Top of the Top and makes it to the final cut.
