PATENT AND TRADEMARK OFFICE

Owner email address field now masked in TSDR

We're taking steps to address your concerns about owner email addresses being visible in [TSDR](#). The owner email address field is now masked in TEAS and TEASi documents viewable in TSDR, including submissions viewable in the documents tab, application programming interfaces (APIs), and PDF downloads. Unrepresented owner email addresses will still be viewable in the correspondence email address field. When you open a TEAS or TEASi document in TSDR, you'll see "XXXX" in the owner email address field. We believe this will help reduce the number of solicitations you receive.
