Robert has a broad range of experience in complex domestic and foreign patent prosecution, licensing and counseling issues in the technical fields of electronics, communications, mechanical systems and physics. He has written numerous patents involving RF systems and circuits, computer software and hardware, cryptographic systems and software, radar systems, terrestrial and space-based digital communications systems, wireless telecommunications, consumer electronic devices and components, Internet and business methods, composite materials and manufacturing.

Robert represents clients ranging from leaders in the global communications market to major defense contractors.

Within the firm, Robert serves as office managing partner of the West Palm Beach office.

Before Fox Rothschild

Prior to joining the firm, Robert was a principal with Darby & Darby. In 2003, Robert left his partnership in a Florida law firm to establish his own firm.

Before attending law school, Robert worked as a senior engineer involved in missile defense systems.
